EXPERIENCE

The University of Chicago — Department of Economics, Chicago, IL

Research Professional, June 2026 – Present

- Lead empirical work for Prof. Ali Hortacsu's research on US electricity markets and the macroeconomic implications of AI infrastructure growth. Build and maintain US utility-year and parent-year panel datasets integrating federal and regional-market filings.
- Apply panel and time-series econometric methods to estimate cost pass-through from infrastructure investment into retail electricity prices.

Bogazici University, Istanbul, Turkey

Undergraduate Researcher, September 2024 – June 2025

- Managed independent research project examining labor markets in Turkey.
- Utilized microdata with Oaxaca-Blinder Decomposition method controlling for occupational variation and sector informality
- Authored journal-quality manuscript and presented paper at the Turkish Economic Association Annual Conference.

Teaching Assistant, September 2021 – June 2025

- Teaching Assistant for Intermediate Macroeconomics, Mathematical Statistics, Computing for Economics and Management, and Principles of Microeconomics; led weekly problem-solving sessions.

Turkish Industry and Business Association EU Representative Office, Brussels, Belgium

Researcher, June 2024 – September 2024

- Authored macroeconomic and business-environment briefings on Turkey for institutional clients; supported engagement with BusinessEurope.
- Organized Brussels Energy Club meetings convening ambassadors, scholars, and senior EU officials to coordinate Turkey-EU policy on energy markets and regulatory convergence.

MA Computational Social Sciences Lab at Koc University, Istanbul, Turkey

Research Assistant, June 2022 – February 2023

- Supported project "IMF Decides, Machine Learns: An AI Approach to IOs" (PI: Dr. Merih Angin); built cross-country macroeconomic datasets for 20+ countries linking IMF Executive Board minutes to program conditionalities and sovereign credit valuations. Developed working familiarity with IMF, World Bank, and BIS data platforms and the political economy of official creditor decision-making.

Ministry of Foreign Affairs of Turkey, Ankara, Turkey

Strategy Intern, June 2022 – September 2022

- Supported policy operations on bilateral relations across Eastern Europe and the South Caucasus at the Directorate General for Bilateral Political Affairs; selected for diplomatic mission to Shusha, Karabakh, participating in international conference with ambassadors and senior officials on post-conflict peacebuilding and regional economic reconstruction.
